A review article is a scientific publication that compiles, analyzes, and critically evaluates existing literature on a specific topic and is very often among the first scientific works by doctoral students. How to synthesize existing knowledge, how to refine thematic priorities, how to identify knowledge gaps, these are some of the key ideas that <u>Prof.</u> <u>Catherine Pickering</u> will tell us about.

20 minutes of inspirational speech, then questions, discussion, free microphone. The meeting duration is 45 minutes. Once a month on Thursdays: 20 March, I7 April, 22 May, I9 June 2025
